-  1999 • Established in Washington State USA

Simplify Delivery

SUBSCRIPTION BASED

Subscribe to Software as a Service to eliminate upfront licensing cost and pay a single predictable monthly fee for software, hosting, support and maintenance.

NO HARDWARE INVESTMENT

Eliminate costly upfront investment in servers and security infrastructure as well as ongoing costs of internal maintenance and periodic hardware upgrades. Ensure high performance with over 100 servers available to handle peak loads.

ALWAYS UPDATED

GreatDay HR multi-tenancy architecture provides continuous updates delivering better performance and new functionality while virtually eliminating the potential of costly version upgrades.

HIGHEST SECURITY

Our ISO 9001 and 27001 certified data centers are secured by comprehensive firewalls, load balancers, intrusion protection and monitoring services and undergo extensive hardening as well as third party penetration testing.
